

## **Plan to acquire the ownership of ANZEN YUSO Co., Ltd. with the aim of increasing vehicle capacity of the Group and expanding its business**

SENKO Co., Ltd. (Headquarters: Osaka-shi; President: Yasuhisa Fukuda, “SENKO”) plans to acquire all shares of ANZEN YUSO Co., Ltd. (Headquarters: Yokohama-shi; President: Tsukasa Kubota, “ANZEN YUSO”), which is engaged in cargo automobile transport businesses in the Kanto district based in Kanagawa Prefecture, and will make ANZEN YUSO its wholly-owned subsidiary by the beginning of October 2017.

SENKO and ANZEN YUSO concluded a share transfer agreement on August 9, 2017.

ANZEN YUSO is engaged in transportation of a wide variety of products, mainly chilled and frozen food products, which range from daily necessities to industrial products, and also operates five logistics centers.

ANZEN YUSO owned about 400 vehicles ranging from small-sized to medium/large-sized vehicles; available in a wide variety of models such as aluminum van trucks and refrigerator and freezer trucks, and it is a major transport company in Kanagawa.

Making ANZEN YUSO into a subsidiary will allow SENKO to increase the number of not only vehicles but also of personnel in the West Kanto district, mainly in Kanagawa, which will result in the improvement of transportation efficiency and expansion of its business fields.

On the other hand, ANZEN YUSO aims to expand its business fields by utilizing SENKO’s production and customer bases. In the food sector, collaboration with Runtec Corporation (Headquarters: Fukuoka-shi; President: Kazuhiro Yamanaka), a group company of the SENKO Group, will allow ANZEN YUSO to reinforce and enhance transportation in three temperature ranges. Furthermore, “Crefeel Koto”, an educational facility of SENKO, will now be available to provide education for logistics technology and safe driving, which will benefit the development of human resources.
