

## **Senko Boosts Logistics Capabilities in Hokusei Region, Mie Prefecture**

**- Construction of New Logistics Center on Land Adjacent to Yokkaichi City PD Center -**

Senko Group Holdings' core company Senko Co., Ltd. (President: Yasuhisa Fukuda; "Senko") will on April 27 complete construction of the "Yokkaichi PD No.2 Center" on land adjacent to the Yokkaichi PD Center (Yokkaichi City, Mie Prefecture), and start operating business from May 2.

Senko opened the Yokkaichi PD Center in 1990 and has been conducting logistics operations there, and purchased the land adjacent to the center to construct the Yokkaichi No.2 PD Center to boost logistics capabilities in the Hokusei region, Mie Prefecture.

The new center is located in an area linking the Chūkyō and Kinki metropolitan areas, and is planned to operate as a new delivery center for the small package delivery network that Senko is developing based on its nationwide logistics centers.

Combined with the existing Yokkaichi PD Center, the opening of the new center will increase the total floor area to 28,827 m<sup>2</sup> and expand the storage capacity, as well as enable logistics processing such as product packing and packaging work.

Solar panels will also be installed on the roof of the new center to sell generated power.

**<Yokkaichi PD Center 2 Overview>**

1. Address: 715 Koyashiki, Shikamacho, Yokkaichi, Mie Prefecture
2. Building structure: 4-story steel-framed building (high floor)
