

**Local German Subsidiary Established**  
**Strengthening Systems to Develop European Logistics Network**

The road that the local office is located on

SENKO Co., Ltd. (President: Yasuhisa Fukuda, "SENKO") established the local subsidiary "Senko Logistics (Europe) GmbH" on July 20 in Düsseldorf, the financial center of western Germany.

SENKO opened a representative office in Düsseldorf in March last year, and has expanded cargo forwarding services between Asia and Europe by coordinating business with group companies like Best Global Logistics located in Thailand and Skylift located in Singapore.

In order to further boost coordination with overseas business sites, the forwarding and customs clearance company "Senko Forwarding Co., Ltd." was established in April this year, strengthening the implementation framework for international logistics business.

Establishing a local subsidiary will enable SENKO to provide a consistent supply chain to Japanese companies expanding into Europe that SENKO engages in business, as well as further expand the logistics network with a view to providing new services such as cold logistics chains to the Middle East, Africa and surrounding regions.
