

## Completed the construction of Asphalt Center in Hiroshima

**- Provide support for asphalt sales of Itochu Enex -**

SENKO Co., Ltd. has completed the construction of two tanks as an asphalt center of Itochu Enex Co., Ltd. (*Enex*) on November 13, 2015 in Mihara, Hiroshima.

Previously our company has provided support for stable supply of asphalt by constructing and serving two asphalt tankers in collaboration with Enex to transport asphalt manufactured by a Korean manufacturer to Enex's domestic storage site.

For providing support for Enex's sales activity in Chugoku/Shikoku area, our company constructed two asphalt tanks to conduct asphalt logistics operations including stock management work, loading/unloading work and shipment from the asphalt ship.

Our company will provide Enex with logistics support in its efforts for stable supply of asphalt and construction of sales network.
